About the Prelims cum Mains Sherlocking Modules

The DAW Question Bank will be freely available and accessible to all students. Every question in this runway is yours to read and attempt at any time, with or without enrolment.

For students who layer in the Mains Sherlocking Comprehensive Module, each DAW question is paired with a **Sherlocking Answer Blueprint** (a written walkthrough of how the answer is built) and an **UnlockIAS Proprietary AWE Bot** evaluation (Neil-sir-aligned grading against the UPSC rubric, with actionable feedback within minutes).

The **Sherlocking Comprehensive Module** adds the Syllabus Parsing videos, PYQ Mapping packs, Endgame walkthroughs, Art of Answer Writing master videos, the Studying Ethics master video, and the Topper Copy Scavenging series. The **Sherlocking Test Series** adds 10 full-length tests across Simulator Sets 1 and 2, each with immediate AWE Bot evaluation, model answers within the UPSC word limit, and one 1-to-1 mentorship call with Neil sir.

The **Sherlocking Prelims Complete Module** layers the Prelims runway into the same calendar: year-wise Sherlocking of every Prelims paper (2013-2025) across History, Geography, Environment, Polity, Economy and Science and Technology, the theme-wise video library, the CSAT Comprehension, Quant and Logical Reasoning packs, the Heuristics Module and 93 supporting documents. 333 videos and 165+ hours, each placed in this time table next to the subject you are already studying for Mains, so one calendar carries both exams till mid-February.
